PERFECTIONIST

COMPUTER LITERACY

As a knowledgeable Computer Science student, I would like to view, download, rate and comment exam materials uploaded by others, so I could compare them with mine and give useful feedback.

5/5

As a user, I'd like to organise study groups and meet up with the people from my course, so I could learn how to phrase problems vocally (which would increase my understanding) and rekindle my social skills.

4/5

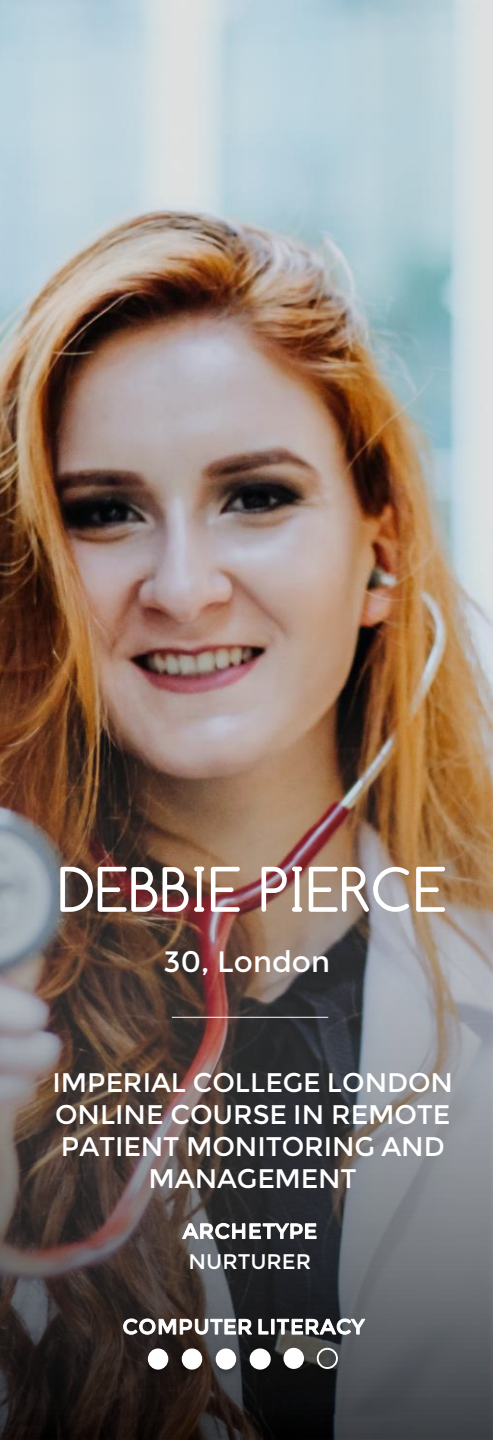

As an experienced Computer Scientist, I'd like to be able to use advanced filtering when accessing uploaded files, such as tags, category, date, rating etc., so that I could save time and only view relevant information.

4/5

As a night owl, I'd like to be able to set the app to 'night mode', so I could lessen the strain on my eyesight and customise my notifications so that they don't wake me up at night.

3/5

Note: the yellow bubbles above denote priority.

IMPERIAL COLLEGE LONDON
ONLINE COURSE IN REMOTE
PATIENT MONITORING AND
MANAGEMENT

ARCHETYPE
NURTURER

COMPUTER LITERACY

As an adult studying an online course remotely, I'd like to get in contact with people from my course/other students, so that I could escape my own bubble of thoughts and hear other perspectives.

5/5

As a user, I'd like to be able to chat with people directly/privately about certain topics only me and the other person are passionate about, so that I could learn more about my topics of interest from a knowledgeable person.

5/5

As a user who's short on time, I'd like to be able to do succinct quizzes made by others, so that I could get an overview of the whole syllabus without having to read through all the course materials.

3/5

As a user, I'd like to see some stats on the app of how much progress I'm making, so that I could track how well prepared I am for the exam.

2/5

Note: the yellow bubbles above denote priority.

A portrait of Makoto Kei, a young woman with long brown hair, smiling and resting her chin on her hand.

MAKOTO KEI

20, Leeds

UNDERGRADUATE BUSINESS
MANAGEMENT STUDENT IN
LEEDS UNIVERSITY

ARCHETYPE
SOCIAL BUTTERFLY

COMPUTER LITERACY
● ● ○ ○ ○ ○

As a non-techy user, I'd like to have some tutorial that would explain how to use the app, so I could learn how to navigate the interface.

3/5

As a user, I'd like to be able to filter the uploaded materials by their size or tag 'succinct', and the format, so I could select i.e. audio or visual materials as opposing to plain text and make sure they're not long-winded.

5/5

As a social user, I'd like to be able to organise study groups in an efficient manner, and upload what has been discussed, or material produced, so that I could learn more efficiently and train my management skills.

4/5

As an easily bored user, I'd like to have some sort of gamification that would reward me for learning, creating quizzes or study sessions, so that I could be more motivated to keep studying.

3/5

Note: the yellow bubbles above denote priority.

JAMES GRANT

23, Edinburgh

UNDERGRADUATE
AGRICULTURAL SCIENCE
STUDENT IN THE UNIVERSITY OF
EDINBURGH

ARCHETYPE
THE REBEL

COMPUTER LITERACY

As a private user, I'd like to be able to stay anonymous within the app, so that I could protect my voice and identity.

5/5

As a spaced out user, I'd like to be reminded of when the exam starts and ends, which tools to take, whether it's open-book, location and seat number, so I could be well-informed on the day and avoid failure due to human error.

5/5

As a user, I'd like to be able to create separate threads from the general one for a specific exam, so that I could branch out and discuss about a particular topic without interrupting anyone disinterested.

4/5

As a user, I'd like to be able to modify or delete my uploads if I realise they're unsuitable and that all the comments/votes would be deleted alongside, so I could preserve my privacy and anonymity. The same applies to any other content generated by me.

4/5

Note: the yellow bubbles above denote priority.
